Name: _____

Date: _____

Unit: Animal Responses to Information

Lesson: Design Challenge - Test

Evaluate a model from another team. Write down the main sensory structures and their associated perceptions.

Structure	Perception (this structure senses ...)
<i>Antennae</i>	<i>Smell, touch, chemicals, other insects</i>

Follow the decision tree for the animal model evaluated above. Draw the paths that you think should be modified and provide suggestions to the other team.

Test: Try different paths that can be improved and provide suggestions for improvement below

Example:

Eye

Sees predator

~~Moves towards predator~~

Should move away from predators!
