

MAKER JOURNAL

Name: _____

Date: _____

Unit: Interactions Between Earth's Spheres

Lesson 1: Understanding Earth's Spheres

Use the video resources for this lesson to get information on each of the four Earth spheres and record notes below.

Video Notes: Write down important information and/or draw pictures of main ideas

Geosphere	Hydrosphere	Biosphere	Atmosphere

Use the information above, discussion ideas, and your own experiences to answer the questions below.

Essential Lesson Questions:

1. What are the main differences between the different sphere systems?

2. How do the sphere systems interact?

3. Why is it important to understand the interactions between the sphere systems?
