MAKER JOURNAL

Name: _____

Date: _____

Answer the following questions using what you learned in this lesson.

1. What is data security?
2. How can individual users keep their personal data safe from hackers?
3. How do institutions (banks, schools, government) keep data safe?
4. Why do you think institutions require more methods to secure data than most people?
5. What can you or your family keep your own personal data safe online and on portable devices (smartphones, USB drives, etc.)?
