Unit: Safe Crossings

Lesson 1: Danger beneath the Ice

Hidden Dangers – *Think about a time you got hurt by something you could not see. Maybe it was hidden in the ground, hanging, or fell from above. Take 1-2 minutes to think and write about it below and be ready to share.*

--

Resources on Crevasses	Answer the questions below for each of the resources listed
Video: Snow Bridge Collapse	What is the most dangerous thing about the snow bridge in this video? What do you notice about what happened?
Crevasse Images	What do you notice in the images (depth, amount of light, smooth vs. rough walls, etc.)?
Video: Fall into a Crevasse	What do you think might have prevented the fall into this crevasse?
Video: Crevasse Rescue	What tools and equipment you see being used in the video?
